

## Health Benefits

### Balances body pH

Reduces acidity caused by the modern diet (coffee, sugars, processed foods).

### Improves hydration

Alkaline water is better absorbed by cells, leading to more efficient hydration.

### Supports digestion

Can reduce stomach acidity and improve intestinal health.

**Strengthens the immune system** by reducing acidity, the body stays in a healthier and more balanced state.

## Technical and economic benefits

### Easy installation

Compatible with most reverse osmosis systems.

### Long-term savings

Allows you to consume high-quality water without the need to buy bottled water.

### Personalized benefits

Water on demand.

**Adaptable for the whole family** Ideal for those who seek the benefits of alkalinity and for those who prefer weak water.

## Taste and consumption benefits

### Enhances water flavor

Eliminates the metallic taste of water filtered by reverse osmosis.

### Choose your pH

Alkaline water at position 0 with a pH of 9.5, up to position 4 with a more neutral pH.

### Perfect for beverages and cooking

Enhances the taste of soups, teas, coffee and any recipe, bringing out the flavors of food ensuring pure water of cooking.

Bypass	0	1	2	3	4
Filtered water	100%	90%	75%	65%	50%
Without filtered water	0%	10%	25%	35%	50%
